BFA HISTORY

Barrel Futurities of America- Where, Why, Who and What Now?

In Joshua, Texas the first barrel racing futurity was produced by the Texas Barrel Racing Association. It would soon be clear a new industry was emerging in which standardization was needed for event producer accountability, standard competition rules and payouts. Thus in 1980, the Barrel Futurities of America was established to provide leadership and guidance for the barrel racing futurity industry.

Sue Sistrunk, along with a newly elected board of directors, created a rulebook, and began recruiting event producers. When Florence Youree, a barrel racing icon and industrial front runner, became president she stepped up the BFA further. Mrs. Youree had a vision to produce a BFA World Championship at Oklahoma City, Oklahoma that would attract a large number of entrants that would compete for big payouts. In 1986, this vision became a reality when Oklahoma City hosted the inaugural event. Thirty-five years later, The BFA World Championships has grown into one of the top events for competitors to point their world class athletes to.

The BFA continues to be dedicated to the betterment of producing world class aged events while encouraging professional trainers, amateur and youth riders to compete at a top-notch level to gain experience and knowledge. Our organization strives for increased purses, expanded global competition opportunities and attracting new barrel racing enthusiasts.

The Barrel Futurities of America will continue to seek to achieve to payout more purse money, support amateur and youth riders, build resumes of the professionals, educate on horse industry business practices. We will continue to encourage the betterment of care of their horse athletes while building lasting relationships with barrel racing industry participants along with the public who want to support the barrel racing futurity industry.

We want to welcome you to the 2026 BFA World Championships and wish each of you the best of luck at this year's event.
